MAC is known for their collaborations. From Lady Gaga to Nicki Minaj, this brand never misses a beat. Their most recent team-up had a few people scratching their heads. Here at

MANIAC, we are ecstatic. Our favorite orange-haired firecracker is the newest part of the MAC team and the collection is on fire – figuratively speaking of course.

The four-piece collection is inspired by Hayley’s signature ‘do – which we love! It includes a nail polish, lipstick, eyeshadow and powder. The best part of the release? Their new CD is out too and from the sounds of their two released songs, it’s a seismic shift in sound for the trio. A makeup release along with a new CD? Go on with your bad self Miss Williams.

We’re excited about previously discontinued Lightscapade shade of Mineralize Skinfinish being re-released with her collection! And that lipstick? Perfect for amping up your spring makeup. Prices will range from **\$15 to \$29** and are available now! So hurry before they sell out. Orange you glad we keep you in the know?

I believe when you're pretty on the inside, you're pretty on the outside but you can't beat that perfect shade of lipstick and eyelashes as big as your dreams.
