When it comes to fashion, we drool over many different trends. One we are particularly fond of is tribal. From zigs to zags, the colorful patterns are perfect for warmer weather.

We can't get enough of it and we trust no-one more than Missoni when it comes to perfecting the designs. If you aren't familiar with the brand then we invite you to get acquainted. They're teaming up with Converse and the outcome is a match made in heaven. These shoes will certainly finish first this spring.

This isn't the first time that the brands have paired up. In Fall '10 they had a line for Chuck Taylor's All Stars and in Spring '13 they added a platform to the classic shoe. This collaboration features the Auckland Racers and at \$200, it's a price that can't be beat. Not only are these multi-stitch shoes gorgeous, but they fall into our ever-evolving obsession with shoes of all kinds. The plus side is we can wear these on a casual day or sweating at the gym. Motivation to work out? Always a plus.

With two different color choices to choose from, our only dilemma is which ones? On one pair, warm shades of burnt-orange and gold are balanced by cooler shades of seafoam and royal blue. On the other, muted camouflage. The shoes are unisex style and come in sizes 7-13. You better hurry though. They're available now and limited edition. Head to your nearest Converse of Missoni pair and grab one for you and the other for a man in your life. We don't expect these to last too long on shelves.

I believe when you're pretty on the inside, you're pretty on the outside but you can't beat that perfect shade of lipstick and eyelashes as big as your dreams.
